

Farmsumerpoort

Farmsumerpoort is a fully developed business park for small and medium sized businesses adjacent to the port of Delfzijl. The Eemskanaal, a major inland-shipping artery, encloses it on both sides. Farmsumerpoort is the ideal location for companies in the supply and services industries. The site still offers space for new initiatives and new businesses.

Perfect location, perfect infrastructure

Farmsumerpoort is ideally located: at close distance from major industries and at a stone's throw from both the outer and inland seaport. It already harbors a wide range of trade and service companies, Farmsumerpoort allows new businesses to establish close to customers and/or suppliers, and thus benefit fully from the excellent infrastructure and business synergy.

Farmsumerpoort offers direct connections by road, sea and inland shipping. Well-established companies including Agrifirm, Blijdorp International, Merema, and Wijnne & Barends' already operate from Farmsumerpoort.

"One of the major advantages of this port area is the space it offers – both physical space and business opportunities."

Groningen Seaports, more than just owner of the land

Farmsumerpoort has been developed and is maintained and managed by Groningen Seaports. Groningen Seaports offers full support to all new and existing businesses. Your own account manager at Groningen Seaports will provide you with all necessary business information and help you obtain all necessary licenses and any subsidies, if required.
